Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed; may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This is the **Final Office Action** for application number 10/735,360 Mailbox Post Bracket filed on 12/12/03. Claims 1-14 are pending. This **Final Office Action** is in response to applicant's reply dated 8/4/05. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated any new ground(s) of rejection presented in this Office action.

Claim Rejections - 35 USC § 102

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent No. 6047933 to Hoover.

The patent to Hoover discloses a bracket (10) for securing a mailbox to an upstanding post including a laminar rectangular plate (16) an upper and lower surface and a pair of long edges and a plurality of lightening holes (the bolt holes are considered to lighten the plate and therefore are lightening holes), the upper surface of the plate (16) which is adapted to be generally coextensive with and support a lower surface of the mailbox (24), if so desired, a means for securing (22) the mailbox to the plate which includes that the long edges of the plate (16) each have a flange that extend generally perpendicular to the rectangular plate and a nut and bolt fastener (20), and a one-piece generally continuous and cylindrical sleeve (12) secured to the lower surface of the plate and extending downwardly therefrom and a means for securing (18) the

Art Unit: 3632

post to the sleeve (12) having an aperture formed through the sleeve and the post and a bolt (18) used as a sleeve fastener which is extending through the aperture.

Response to Arguments

The applicant has argued that the Hoover reference does not teach a plate which is generally coextensive to a lower surface of a mailbox. This is unpersuasive because the applicant has argued the claim narrower than recited in that the claim recites that the plate is "adapted" to be generally coextensive with the mailbox, which means that the plate may only need to be "capable" of performing such a function. It is easy to see that if the mailbox were placed above the plate (16) that the plate would remain within the same general boundary lines of the bottom of the mailbox. Also the applicant recites that Hoover does not teach a sleeve attached to the plate. It is evident that sleeve (12) is attached to plate (16).

Conclusion

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3632

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action. Any inquiry concerning this communication should be directed to Amy J. Sterling at telephone number 571-272-6823. The examiner can normally be reached (M-F 8 a.m.-5:00 p.m.). If attempts to reach the examiner are unsuccessful, the examiner's supervisor, Robert Olszewski can be reached at

571-272-6788. The fax machine number for the Technology center is 571-273-8300 (formal amendments) or 571-273-6823 (informal amendments and communications).

Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist at 571-272-3600.
